

This architectural elevation drawing shows a single-story house with a large, symmetrical gable roof. The roof is filled with vertical hatching. The front facade features a four-car garage on the left with four horizontal panels. To the right of the garage is a central entrance with a small pediment supported by two columns. The entrance has a double door with a transom. To the right of the entrance is a large window with a transom, and further right is another window with a transom. The entire house is set on a flat ground line.
